

A Day at the Range

June 26, 2010

Raahauge's
Corona, Riverside County

Find out why more and more women are taking up the thrilling sport of shot gunning. Range masters **Cherel and Scott McCracken** will instruct you in firearm safety, types of ammunition, getting a good fit, and cleaning and maintaining your shotgun. You will get lots of practice breaking clays. This class is for you if you are considering taking up shooting as a hobby or if you are interested in hunting.

This course will help prepare you for your Hunter Safety class. All shooting equipment (shotguns, ammo, safety glasses and ear protection) and lunch will be provided. Last year there were several gals who had never shot a shotgun before and by the end of the day, they were shooting doubles! Come see what the excitement is all about!

Fee: \$150

30 participants

In California, over 5,000 women have participated in a BOW event.

Don't wait another minute to step outside and join us.
